EDUCATION

2021 - 2024
BENGALURU CITY UNIVERSITY

- Bachelor Of Computer Science
- CGPA: 8.64

2024
TCS NQT EXAMINATION

- Percentage: 66%

2024
INTERNSHIP AT CODECLAUSE

2023
QSPIDERS C PROGRAMMING COURSE

2020 - 2021
SINDHI HIGH SCHOOL

- Class 12 - MEBA
- Percentage: 66.20%

2019 - 2020
NARAYANA E TECHNO SCHOOL

- Class 10
- Percentage: 73.80%

HOBBIES

- Playing Chess
- Listening to music

CERTIFICATION AND PROJECTS

● Internship at CodeClause

JUNE - 2024

What did I do there?

- Make Projects on Android Development
- Learn to make proper Android Applications
- Learn how to write high-quality code
- Create my own programs, writing own algorithms, solving various problems using Java and Kotlin Programming.
- Link for my Project: <https://github.com/Dheeraj3031A/PasswordManager>

● QSpiders C Programming Course

What did I learn?

AUGUST - 2023

- Understand the fundamentals of the C Programming Language
- Learn one of the most popular, widely used languages in the world
- Learn how to write high-quality code
- Create my own programs, writing own algorithms, solving various problems using C programming.
- In depth understanding of Inheritance and dynamic polymorphism, how runtime polymorphism helps to write more flexible

● Password Manager Application

SEPTEMBER - 2024

The Password Manager is an Android Application developed in Java that allows you to securely store and manage your passwords locally on your device. This password manager ensures the privacy and security of your passwords through Advanced Encryption System (AES) and offers biometric authentication for enhanced protection.

Features:

- Store and manage passwords securely on your device.
- Advanced Encryption System (AES) to protect password data.

Biometric authentication for added security.

Upcoming Features:

- Adding Cloud Sync
- Importing and Exporting Passwords and many more

INTERESTS

- Cyber Security
- New Technologies in the market
- Reviving old mobiles and computers
- Towards new learnings and upgrading my skills

SKILLS

- Web Development: HTML, CSS, JavaScript Programming
- Languages: Java, C, Python
- Mobile Application Development
- Avid Learner
- Interpersonal Skills
- Open source
- Linux

LANGUAGES

- English (Fluent)
- Kannada (Fluent)
- Hindi (Basics)
- Telugu (Basics)

● Basic Insurance Website

JUNE 2024

It is a basic Insurance website made using HTML, CSS, JavaScript and Bootstrap. Despite its simplicity, the website offers a user-friendly interface that guides visitors through the process of exploring various insurance plans. Each section is clearly labeled, making it easy to navigate and find the necessary information. The homepage features a clean design with a welcoming message and quick links to popular insurance categories such as Life, Health, Auto, and Home Insurance. Interactive elements, powered by JavaScript, enhance the user experience by offering instant quotes, policy comparisons. The CSS styling ensures that the website is visually appealing, with a cohesive color scheme and well-organized content that prioritizes readability.

UPCOMING FEATURES:

- A text document pops up requesting the client or user to provide a few details such as Name, Mobile No., E-mail id and location.
 - By selecting the category eg. Life Insurance, it will provide all the various products and brochures and can be downloaded by the client for further evaluations.
 - On Selecting the product by the client it will display all the features and benefits on buying the product though bullet points and video demonstration featuring lecture or speech meant to inform, persuade, inspire, motivate related to the product.
-
